

FOR ORGANISATIONS

Every engagement, on the record.

Engage specialists, contractors and service providers with agreed terms, a meeting record and a confirmed outcome, all in one place.

Most engagements still live in chat threads, emails and memory. When something is questioned later, nobody can show what was agreed.

BEFORE THE WORK	WHILE IT HAPPENS	WHEN IT IS DONE
Agree. Scope, place, date and fee are set before the engagement begins. Meet on video with the terms beside the call. Both sides confirm the agreement, and every change is kept in the agreement history.	Do. Each engagement shows where it stands. Meetings, job dates and plans sit in one calendar. Payments you make are recorded, and the other side confirms receipt.	Prove. Both sides confirm the work is finished. WORK89 issues a record that anyone you share it with can check, without seeing the people, the agreement or the payment.

What your organisation gets

- A public organisation identity, with the people acting for you kept private.
- Search professionals by skill and place and send a private request, or publish an opportunity and review applications.
- Video meetings in the browser or the app, with the job and its agreed terms beside the call.
- Recording and transcripts for hosts on business accounts, only with everyone's consent, deleted after 7 days.
- A confirmed record for every finished engagement. It shows both sides confirmed completion; it is not an assessment of quality.
- Optional ID document review for professionals. We say exactly what was checked, and what was not.

Good to know

- WORK89 is software, not an agency. We do not place people and we take no fee or commission on an engagement.
- WORK89 does not hold, process, guarantee or reverse money. A payment is recorded and the other side confirms receipt.
- We agree terms with your organisation in writing before anything is charged.
- Names and phone numbers are hidden from visitors. WORK89 is registered with the Information Regulator and designed around POPIA.

Tell us how your organisation engages people.
